

Dear Community School families,

Given the most recent advice from health authorities to practice social distancing, we have made the difficult decision this morning to be proactive and close our all-day Extended Day during spring break. We do realize the challenge this presents for some of our parents, and we apologize for the inconvenience. It seems clear, though, that in order to protect the health of our students and employees we need to minimize contact as much as possible at this time.

As of right now, we are still intending to reopen school on March 30. However, please be aware that it is possible we will not. Families should be planning now for child care during a school closure. Should we be required to close, we will communicate that information to families immediately.

These are difficult times. Bear in mind that children take their cues from all of us, and do your best to insulate them from your most serious worries. Keep them busy, get some fresh air, turn off media, enjoy some family time, and reassure them that they are safe and loved.

Be healthy,

Bob and Trish
